# WHAT IS EXIT THE ROOM?

From 2022 to 2027, the EXIT THE ROOM project – funded by the EU's ERASMUS+ program – will bring young adults interested in art back into motion and into an European exchange with each other. The aim is to turn the next generation into creators of their own programs and to encourage new forms of discourse about and with the mediation of art. In this way, a network of Next Generation Projects is to be created in European youth theatre by 2027.

The program includes **residencies of YOUNG ARTISTS** and their performative try-outs at the participating festivals as well as **expert discussions and networking meetings**. New forms of dialogue, reflection and encounters between young people around theater performances will be developed. The focus is on intensifying the existing networking activities of aspiring artists with more established artists in workshops, dialogues and discourses.

## YOU ARE ...

- between 18 and 25 years
- have experience in one or more of the fields: theatre, performing arts, music, dance
- are open to new inputs and exchange with other artists
